WEATHER OF CONCERN

Weather of Concern

Northern California:

- Red Flag Warning from Saturday afternoon to evening for the Western Nevada Sierra Front.
- Red Flag Warning from Saturday afternoon to night for the Eastern Sierra and West Central Nevada.
- A slight chance of thunderstorms for northwest California Saturday afternoon and evening.
 - Around 0.25" of rain is expected over all of our Shasta County burn scars. Although that is not much, areas that experienced extreme fire behavior can sometimes have issues with very light amounts of rainfall.

Southern California:

- Red Flag Warning from Saturday afternoon to evening for Mono County.
- A Flash Flood Watch is in effect from Monday morning to early Wednesday morning for Inyo, San Bernardino, Imperial, and Riverside counties, due to Hurricane Rosa.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

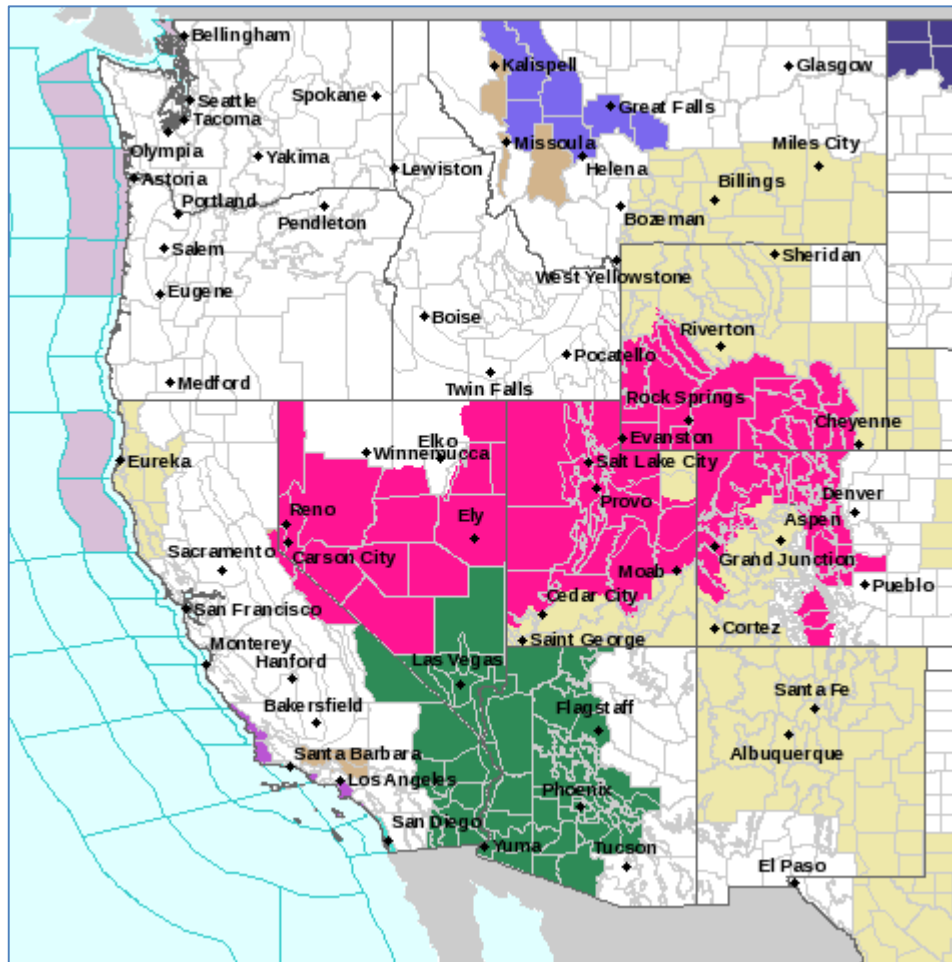

- Low pressure W of Northern CA will gradually move NE through Sunday, followed by another low moving into Central CA Tuesday-Wednesday.
- Relative humidity (RH) 15-25% many inland mid and upper slope areas this morning. All areas W of the Cascade-Sierra crest saw RH climb late yesterday, and overnight RH recovery was good.
- Areas E of the crest will continue to see minimum p.m. RH 6-18% and overnight RH recovery to only 20-40% mid and upper slopes until Monday.
- S-SW winds increase this afternoon. Gusts 20-25 mph, strongest in the Weed/Shasta Valley area and along and E of the Cascade-Sierra crest. Gusts increase to 35-40 mph and locally higher NE CA, Northern Sierra, and Far Eastside this afternoon. S-SW gusts drop back to 20-25 mph same areas Sunday.
- Light rain NW of a line from Petaluma-Red Bluff-Lava Beds National Monument today and Sunday. A few embedded thunderstorms possible. Totals 0.25 inches or less, with isolated 0.50-0.75 in NW mountains.
- All areas cool and humid with areas of light rain possible Monday-Wednesday, but dry offshore winds return next Friday-Monday.

SOUTHERN CALIFORNIA

The strong ridge of high pressure that has been over the West Coast the past couple of days will weaken today. An area of low pressure will move inland over Northern California this weekend. Another low pressure will approach the California Coast Monday and move inland over the region Wednesday. Some subtropical moisture from what is now Hurricane Rosa may get entrained into this low pressure area. A weak ridge of high pressure will build into California from the Pacific Ocean late next week.

- South to west winds of 15 to 25 mph with gusts to 40 mph will surface across the wind prone mountain and desert areas through Tuesday evening.
- Maximum temperatures will cool around 5 degrees today, with 70s to low 80s across the mountains and mid 80s to mid 90s in the valleys.
- Maximum temperatures will be a little below normal this weekend and then become well below normal Monday through the middle of next week.
- Minimum humidity will be between 15% and 30% today and then increase to between 20% and 40% this weekend.
- Scattered showers and thunderstorms will form over the mountains and deserts of Southern California Sunday and then scattered showers and thunderstorms will be possible across the entire region Monday through Wednesday.
- Most mountain and desert locations will receive between 0.50 and 2 inches of rainfall, while most coastal and valley locations receive less than a half inch of rainfall.
- Temperatures will warm and humidity will decrease late next week.
